

\*England today..... America next!! They are on the way!\*

Atlanta

is reported to have 80,000 Muslims and they are building a 46,000 sq. ft. mosque in the city....the largest in America! The population of Muslims is growing by leaps and bounds in every major American city. Get ready for demonstrations to begin early next year.

Pictures from London ~ this is beyond scary...

Makes you wonder doesn't it...can you imagine having a Christian demonstration against Islam in downtown Baghdad ! View the pictures below and decide how you really feel about the future of the Western World. These pictures are of Muslims marching through the STREETS OF LONDON during their recent 'Religion of Peace Demonstration.' Why would anyone think that we should be at war with such nice, peaceful Muslims?! All Faiths need to know. You need to forward this one to everyone! These pictures tell it all! Muslims have stated that England will be the first country they take over! These are pictures not shown on American TV or in American Newspapers (as they might help Bush's war on terror), but were forwarded by a Canadian who thought All Faiths ought to know!
